

Dyslexia / Specific Learning Difficulties (SpLD) Professional Development Framework (PDF) Strands SASC – ATS - AMBDA

Background

The Literacy and Dyslexia-SpLD Professional Development Framework is particularly focused on an individual obtaining and developing specific levels of confidence/ competency and demonstration of their knowledge, skills, understanding and attributes for specific roles working with learners with Literacy, Dyslexic or other Specific Learning Difficulties.

This mapping document examines the Literacy and Dyslexia / Specific Learning Difficulties (SpLD) Professional Development Framework (PDF) and how achievement of the strands that make up this programme can be mapped against achievement of the criteria of the SpLD Assessment Standards Committee (SASC) Assessment Accreditation Criteria, BDA accreditation for Approved Teacher Status and Associate Membership of the British Dyslexia Association (AMBDA).

Individuals successfully completing SASC accredited courses and those accredited for AMBDA are qualified to support and provide full diagnostic assessments of learners with dyslexia-SpLD. They can qualify for an SpLD Assessment Practising Certificate.

SASC Criteria for Course Accreditation:

SASC Approved courses must ensure the acquisition of appropriate skills for a candidate to operate as an SpLD assessor at an independent level covering the following areas:

- S.1) Specific Learning Difficulties with a primary focus on Dyslexia.
- S.2) Definition
- S.3) Aetiology
- S.4) Relationship to learning and teaching
- S.5) Other SpLDs (e.g. Dyspraxia / DCD / ADHD and their co-occurrence with dyslexia)
- S.6) Assessment

SASC Approved training must lead to the following Learning Objectives

- L.1. understand the nature of specific learning difficulties and be able to identify learners with SpLD
- L.2. demonstrate an understanding of the cognitive and affective issues observed in learners with SpLD
- L.3. understand the principles, theory and application of psychometric and educational assessment
- L.4. be able to identify appropriate methods and materials for screening and in-depth assessment of individual needs, based on an understanding of current theory
- L.5. know how to administer tests correctly and interpret resulting data accurately
- L.6. have demonstrated the ability to produce professional reports written in a language easily accessible to non-specialists
- L.7. integrate results from a range of assessment findings to draw conclusions
- L.8. be able to make teaching and learning recommendations that are directly linked to assessment findings and to the individual's needs
- L.9. understand current legal and professional issues, rules and regulations affecting individuals with SpLD
- L.10. be able to complete relevant forms and reports to meet varied individual needs
- L.11. understand all aspects of processing documentation and managing special arrangements for learners with SpLD
- L.12. have demonstrated the ability to communicate effectively findings and implications of any assessments to relevant individuals both orally and in writing as required, with due regard for building a positive framework
- L.13. have developed self-reflective practice.
- L.14. have developed practice which takes into consideration equal opportunity
- L.15. understand current professional codes of ethics and standards of practice

Dyslexia / Specific Learning Difficulties (SpLD) Professional Development Framework (PDF) Strands Mapped to SASC – ATS – AMBDA Criteria.

Codes for SASC are taken from above list, for ATS and AMBDA are taken from BDA criteria

Strand A – Structure and development of language, literacy and learning

A2	Know about syllable counting, rhyming, blending, segmentation and ways in which learners perceive and pronounce the sounds within words	Understand phonological awareness and phonological processing.	Illustrate the stages of phonological acquisition and the difference between phonetics (the field that studies human speech sounds) and phonics (the relationships between written letters and sounds in spoken words).	Explain the stages of phonological acquisition; differentiate between phonetics and phonics and show how they are applied to teaching.	Identify the pre-phonics stage of language development (e.g., rhythm, timing and prosody) and be able to use this knowledge in assessments to advise on appropriately targeted support.	1.3, 1.4, 1.5, 1.6,	S1;S2; S3; S4; S6 L1	1.3, 1.4, 1.5, 1.6, 5.2, 5.3, 5.4
A3	Be aware that there are differences in how written and spoken language are formed.	Understand the relationship between written and oral language skills.	Utilise the structure of language with reference to morphology (how words are formed), semantic structure (meaning in language) and written language rules.	Show how the structure of language with reference to morphology, semantic structure and written language rules, can be applied to teaching.	Analyse the ways in which language, morphology, semantic structure and written language rules are reflected in assessment tests.	2.2, 5.1.1	S1; S2; S4; S6; L1	2.2, 5.1.1, 6.1

A4	Be aware that there may be background influences that impact on the development of the English language for different learners	Identify the range of influences that impact on the development of the English language for different learners.	Explain the influences and impact of environmental factors on the development of the English language for the individual learner.	Apply and analyse the impact of environmental factors in the teaching of the English language for different learners	Appraise the impact of environmental factors on the assessment of English language learning.	1.6, 2.6,	S1; S3; S4; S6;	1.6, 2.3, 2.6, 5.5
A5	Be aware of the stages in language and literacy development.	Understand the sequence of language and literacy development.	Detail the indicators of dyslexia and specific language impairment (SLI) in relation to language use and communication.	Apply the indicators of dyslexia and specific language impairment (SLI) in relation to language use and communication, in the teaching environment.	Evaluate the indicators of dyslexia and specific language impairment (SLI) in relation to assessment for language use and communication.	1.1, 1.3, 1.7, 2.1, 2.2,	S2; S4; S5; S6; L1	1.1, 1.3, 2.1, 2.2, 5.6.1, 6.1

A6	Be aware of the variety of factors that can affect language and literacy use and development.	Understand the variety of factors that can affect the development and use of language and literacy and how this may result in barriers to learning.	Explain the factors affecting language and literacy development and the combined impact of other cognitive and environmental barriers to learning.	Develop an in-depth knowledge and understanding of how a wide range of factors for learning difficulties (biological, cognitive, behavioural, environmental) need to be accounted for in planning teaching interventions.	Incorporate the wide range of factors leading to learning difficulties (biological, cognitive, behavioural, environmental) into assessment and advisory practice.	1.1, 1.3, 2.3,	S3; S4; S5; S6	1.1, 1.3, 2.3, 5.1.1, 5.4, 5.5, 6.1
A7	Be aware of how memory difficulties affect learning (such as understanding the need for memory prompts and breaking down tasks in to smaller steps).	Understand the impact of memory on and be able to explain how short term memory difficulties might impact learners in the classroom	Examine the impact of different models of memory on learning.	Develop an in-depth knowledge and understanding of the different models of memory on learning so that these can be used to explain and evaluate learning performance and the selection of teaching strategies	Demonstrate an in-depth knowledge and understanding of the different models of memory on learning through undertaking and interpreting appropriate assessments to inform diagnosis of SpLDs and design of interventions	1.1, 1.4, 1.5,	S2; S3; S4; S6;	1.1, 1.4, 1.5, 5.1, 6.1

A8	Be aware of the impact of English as an additional language on learning and literacy development.	Plan lessons to address the impact of English as an additional language on learning and literacy development.	Discuss the impact of English as an additional language on learning and literacy development and be able to link this understanding to literacy teaching in the educational setting.	Interpret and evaluate the impact of English as an additional language on learning and literacy development and be able to incorporate this into effective literacy teaching for the individual learner.	Assess and report on the impact of English as an additional language on learning and literacy development and be able to advise on how to incorporate this into effective literacy teaching in the educational setting.	1.8, 2.5, 2.7,	S3; S4; S6;	1.8, 2.5, 2.7, 5.2, 5.5, 6.2

A9	Be aware of the potential impact of dyslexia/SpLD on numeracy development.	Understand the potential impact of dyslexia/SpLD on numeracy development and implement supporting strategies.	Detail the impact of dyslexia/SpLD on numeracy development and use this to develop maths interventions for learners.	Develop strategies to distinguish between math difficulties resulting from poor literacy, memory, sequencing, metacognition and dyscalculia and be able to apply this to support individual learners.	Advise on the ways in which poor literacy, sequencing, memory and metacognition impact on mathematical understanding and processes and be able to design interventions for learners. Evaluate potential overlap between the numeracy difficulties of learners with dyslexia/SpLD and those with dyscalculia.	1.4, 1.5, 2.4,	S1; S4; S5; S6;	1.4, 1.5, 2.4, 5.3, 5.4

B2	Be aware of the main areas of difficulty for learners with literacy difficulties in educational settings such as working memory and speed of processing information.	Understand the effects of the main areas of difficulty for learners with dyslexia/SpLD in the educational setting and develop appropriate strategies for the individual learner in the classroom.	Explain the effects of the main areas of difficulty for learners with dyslexia/SpLD in the educational setting and design interventions to contribute to an inclusive classroom.	Appraise indicators of difficulty relating to attainment (literacy and numeracy) and underlying cognitive features (working memory, speed of processing, etc.) and differential performance. Advise on the design and implementation of whole school policies on appropriate interventions.	Critically evaluate differential performance and use this information to select appropriate assessments. Set up evidence based training and support for learners' interventions	1.3, 1.4, 1.5, 2.2, 2.4, 2.5, 2.6,	S2; S4; S6; L2	1.3, 1.4, 1.5, 2.2, 2.4, 2.5, 2.6, 5.1.1, 5.2, 5.4, 6.1, 6.2

Ref.	Stage 1 Universal	Stage 2 Targeted	Stage 3 Targeted Strategic	Stage 4 Specialist	Stage 5 Specialist Complex	to BDA ATS Criteria	To SASC Criteria	to BDA AMBDA Criteria
B3	Be aware of overlapping difficulties often associated with literacy difficulties, such as difficulties in following instructions and poor organisational skills.	Consider theories of co-occurring difficulties with dyslexia when planning classroom support.	Explain, describe and illustrate the differences between theories of frequently co-occurring difficulties and their likely impact on the learner	Discuss and evaluate the impact of a range of theories of specific learning difficulties, their identifying features and the impact of their overlap for the learner. Use this knowledge to optimise support through tailored interventions	Demonstrate and evaluate the range of causal and cognitive theories which differentiate the various SpLDs. Identify the most appropriate assessment tools for accurate and early identification.	2.1, 2.2,	S2; S4; S5; S6 L2	2.1, 2.2, 5.1, 5.6.1, 6.1
B4	Be aware of the main theories of dyslexia/SpLD	Understand the strengths, weaknesses and evidence base of different theories of dyslexia/SpLD.	Use your knowledge of the different theories of dyslexia/SpLD to choose between different classroom interventions.	Evaluate the strengths, weaknesses and evidence base which support the different theories of dyslexia/SpLD when designing interventions.	Research the evidence base which supports the different theories of dyslexia/SpLD, including the neurology underlying dyslexia/SpLD and apply this to the assessment process.	1.1	S2; S3; S4; S6; L1; L2	1.1, 5.1, 5.4, 6.1

Ref.	Stage 1 Universal	Stage 2 Targeted	Stage 3 Targeted Strategic	Stage 4 Specialist	Stage 5 Specialist Complex	to BDA ATS Criteria	To SASC Criteria	to BDA AMBDA Criteria
B5	Be aware of how 'The Simple View of Reading' provides a framework for understanding literacy learning.	Understand a range of models of reading development (including The Simple View of Reading).	Utilise a range of models of reading development when implementing whole class strategies.	Examine and apply theories of reading development to creating structured interventions for the learner.	Evaluate current research on reading development theories and apply this to the assessment and report writing process.	1.2, 1.3,	S2; S4; S6 L1	1.2, 1.3, 5.1.1, 6.2
B6	Understand what is meant by multisensory teaching.	Use the principles of multisensory teaching in a classroom setting.	Design strategies for learners which incorporate principles of multisensory teaching.	Promote the use of structured, multisensory teaching in the context of other specialist teaching methods for dyslexic/SpLD learners.	Critically evaluate current research on teaching methods used to support dyslexic/SpLD learners for wider dissemination.	1.4, 1.5, 2.4,	S4;S6	1.4, 1.5, 2.4, 5.1.1, 5.3, 5.4, 6.2

Ref.	Stage 1 Universal	Stage 2 Targeted	Stage 3 Targeted Strategic	Stage 4 Specialist	Stage 5 Specialist Complex	to BDA ATS Criteria	To SASC Criteria	to BDA AMBDA Criteria
B7	Be aware of ways to support the development of numeracy for learners with literacy difficulties and Dyslexia/SpLD, taking into account possible difficulties with directionality and visual & spatial awareness.	Understand how the development of numeracy skills might differ for dyslexic/SpLD learners. (Should these 2 – Core and Enhanced 1 - be switched or remain where they are?)	Explain how the development of numeracy skills might differ for dyslexic/SpLD learners and implement appropriate strategies.	Distinguish between math difficulties resulting from poor literacy, memory, sequencing, metacognition, and dyscalculia. Plan appropriate interventions to support learners.	Critically evaluate the ways in which poor literacy, memory, sequencing, and metacognition impact on mathematical understanding and processes. Research and evaluate the distinction and overlap between the numeracy difficulties of learners with dyslexia and those with dyscalculia.	2.4, 5.3, 6.1, 6.2	S4; S5; S6 L2	2.4, 5.3, 6.1, 6.2

Strand C – Identifying and assessing dyslexia / specific learning difficulties.

Ref.	Stage 1 Universal	Stage 2 Targeted	Stage 3 Targeted Strategic	Stage 4 Specialist	Stage 5 Specialist Complex	to BDA ATS Criteria	To SASC Criteria	to BDA AMBDA Criteria
C1	Know how to find information on the prevalence of literacy difficulties in your setting.	Share information on the prevalence of dyslexia/SpLD with co-occurring difficulties in your setting.	Identify and use information on the prevalence of dyslexia/SpLD with co-occurring difficulties in your setting to inform educational practice.	Build knowledge of current research on the prevalence of dyslexia and co-occurring difficulties to develop interventions.	Disseminate current research on the prevalence of dyslexia and co-occurring difficulties appropriate across settings.	1.8, 2.7,	S4; S5; L1	1.8, 2.7, 5.2, 5.4
C2	Identify when a learner may be experiencing literacy difficulties.	Employ a range of formal and informal classroom based assessment approaches with learners with dyslexia/SpLD to assist with identification.	Identify a range of formal and informal assessment techniques, including basic skills assessment tools to contribute to the multi-disciplinary assessment and identification of a learner's dyslexia/SpLD.	Evaluate a range of attainment assessment tools to identify a learner's dyslexia/SpLD and advise on appropriate interventions.	Critically compare a range of psychometric assessment tools including cognitive ability [e.g. verbal and non-verbal], attainment and cognitive processing to identify a learner's dyslexia/SpLD and advise on developmental strategies.	1.7, 2.1, 2.1,	S6; L3; L4; L8; L12	1.7, 2.1, 2.2, 5.1, 5.6.1, 6.1

C4	Understand and implement the arrangements required as a result of special arrangements for public examinations agreed for individual learners. Practice these skills with learners, such as the use of an amanuensis in classroom situations or granting extra time in mock exams.	Ensure knowledge and understanding of current regulations governing special arrangements in assessment, test and examinations situations in relation to learners with dyslexia/SpLD is consistently updated in line with current regulations.	Manage the process for setting up special arrangements in assessment, test and examinations situations. Ensure that recommendations for access arrangements are embedded in everyday practice.	Administer appropriate testing of attainment levels to support special arrangements for examinations.	Select and administer appropriate diagnostic assessments to support special arrangements for public examinations, as required.	2.5, 2.6	S4; S6; L3; L4; L5; L9; L10; L11	2.5, 2.6, 5.1, 5.6.1

C5	Understand the assessment and reporting process normally used.	Explain the assessment and reporting process in the educational environment and is embedded in the learning environment.	Use knowledge and understanding of the basic principles of psychometric testing and reporting in order to interpret assessment reports for learners with dyslexia/SpLD to design educational interventions.	Advise others on the basic principles of psychometric testing and reporting in order to interpret assessment reports for learners with dyslexia/SpLD.	Conduct professional psychometric testing, critically analyse qualitative and quantitative data, write appropriate reports and advise others.	2.5,	S4; S6; L5; L6; L7; L12	5.1, 5.2, 6.1
C6	Follow agreed referral procedures in a setting for learners possibly identified with literacy difficulties and dyslexia/SpLD. Know the first point of contact to share information with about these learners.	Agree referral procedures in a setting for learners possibly identified with dyslexia/SpLD and refer learners experiencing literacy difficulties.	Identify when and how to get second opinions or further input from other professionals or agencies that could support the needs and development of dyslexic/SpLD learners.	Respond to referrals from colleagues, parents and other professionals by conducting appropriate assessments and by further referral to specialists as needed	Advise on creating clear guidelines and referral procedures to ensure assessment of learners with literacy difficulties in various settings and inform and train others in their implementation	1.8, 2.5, 2.7,	S6; L11; L12; L14	1.8, 2.5, 2.7, 5.2, 5.4, 6.1

C7	Understand the factors that indicate that further investigation or assessment may be needed.	Consider how learners may benefit from different forms of assessment.	Collate assessment information from the educational setting. Understand the factors that influence the need for assessment and implement appropriate referral.	Interpret the assessment findings and use this knowledge to plan and implement specialist interventions.	Use knowledge and understanding of assessments and administration protocols to select and administer appropriate attainment and diagnostic tests and assessments for learners in the relevant setting.	2.1, 2.2,	S4; S6; L4; L5;	2.1, 2.2, 5.1.2, 5.1.3, 5.6.1
C8	Understand the different forms of assessment relevant for learners with literacy difficulties.	Apply knowledge of the benefits and limitations of different and relevant forms of assessment to support learners with dyslexia/SpLD.	Support understanding of literacy assessments in a range of settings.	Develop knowledge of relevant forms of literacy assessment and advise other professionals, in a range of settings.	Research and implement the latest forms of literacy, cognitive and co-occurring SpLD assessment and advise professionals in a range of settings.	1.7, 2.1, 2.2, 2.5,	S6; L2; L4; L5; L7; L8;	2.1, 2.2, 2.5, 5.1, 5.2, 6.1

C9	Understand how dyslexia/SpLD in a learner's first language may affect the ability to learn English as an additional language.	Monitor the difficulties experienced by learners with dyslexia/SpLD and English as an additional language and make appropriate referrals.	Provide a link to specialist services or professionals for those learners with English as an additional language who may have dyslexia/SpLD. Implement appropriate support strategies.	Identify how dyslexia/SpLD in their first language can affect a learner's ability to learn English as an additional language.	Be able to assess and advise on the impact of dyslexia/SpLD for learners with English as an additional language in a range of settings.	1.3,	S4; S6; L2; L4; L7; L8; L9; L14	1.3, 5.1.1, 5.5

C10	Monitor the progress of learners with literacy difficulties against specific targets relating to teaching and support plan.	Monitor the progress of multiple learners with dyslexia/SpLD against specific targets relating to teaching and support plans. Consider the implications of the data for the individualisation of teaching strategies for learners with dyslexia/SpLD.	Lead on, and collect attainment data, for monitoring purposes and advise others in your setting on how to monitor the progress of learners with dyslexia/SpLD.	Monitor progress, advise others, and implement structured teaching interventions and programmes for learners with dyslexia/SpLD.	Monitor, evaluate and quality assure progress for learners with dyslexia/SpLD. Advise others and adjust assessment protocols and intervention programmes accordingly.	2.4, 2.5, 2.7	S4; S6 L8; L10; L14	2.4, 5.4, 6.2

D1	Demonstrate high expectations of learners with literacy difficulties to promote self-belief and attainment.	Model high expectations of learners with dyslexia/SpLD and take the strengths of learners into account when setting targets.	Lead and support others in appropriate professional development to use strategies which incorporate high expectations of learners with dyslexia/SpLD.	Advise others on strategies to embed high expectations of learners with dyslexia/SpLD across settings.	Advise on evaluating targets and time taken to reach them for learners with dyslexia/SpLD, adjusting targets and interventions according to individual progress.	2.3, 2.6	S4; S6 L8;L12	2.3, 2.6, 5.5,
D2	Encourage learners with literacy difficulties to become more independent.	Encourage learners with dyslexia/SpLD to become more independent and employ specific strategies and tools to support this, including ICT support.	Support and advise other people on strategies to promote the development of independence for learners with dyslexia/SpLD, including ICT support.	Evaluate alternative strategies to promote the development of independence for learners with dyslexia/SpLD. Be up to date with emerging technology and advise others in their use across settings.	Use assessments to inform and advise on strategies to promote the development of independence for learners with dyslexia/SpLD. Design interventions and advise and train others in their use.	1.7, 2.6,	S4;S6 L8; L12	1.7, 2.6, 5.6.3

D3	Include features in the teaching and learning environment that do not rely on text.	Create a dyslexia/SpLD friendly environment that removes or reduces barriers to learning.	Lead and advise others on how to create a dyslexia/SpLD friendly environment that removes or reduces barriers to learning.	Apply current research with respect to dyslexia/SpLD friendly environments across settings and update policies and procedures accordingly.	Review and evaluate current research and the evidence base with respect to dyslexia friendly practice across settings and advise others on the implementation and development of appropriate strategies.	1.6, 1.8, 2.5, 2.7,	S4; L8; L11	1.6, 1.8, 2.5, 2.7, 5.2
D4	Review and understand individual learner profiles to make adjustments to teaching and communications with learners.	Use a profile of a learner's dyslexia/SpLD to plan day to day strategies, interventions and approaches suitably and effectively adapted for them.	Advise other professionals in the setting on how to use a profile of a learner's dyslexia/SpLD to plan strategies, interventions and approaches.	Evaluate how the setting uses a profile of a learner's dyslexia/SpLD to design and make appropriate adjustments. Coach and mentor others in their delivery and ongoing monitoring.	Use assessment tools to create a profile of a learner's dyslexia/SpLD and design and plan strategies, interventions and approaches suitably and effectively adapted for them. Advise on methods to evaluate and monitor their overall effectiveness.	1.4, 1.5, 2.1, 2.2, 2.3, 2.4, 2.7,	S4; S6 L8	1.4, 1.5, 2.1, 2.2, 2.3, 2.4, 2.7, 5.2, 5.3, 5.4, 5.6, 5.7, 6.1, 6.2

D5	Enable learners to set and work towards specific targets. Choose strategies for learners with literacy difficulties, with guidance from other professionals.	Monitor progress of learners working towards specific targets and support colleagues in choosing strategies for learners with dyslexia/SpLD.	Ensure adequate and relevant professional development to enable others to set specific targets and choose appropriate strategies for learners with dyslexia/SpLD; monitor and evaluate progress.	Provide guidance to a range of professionals on how to set specific targets according to the learner's profile. Monitor progress and evaluate data relevant for the setting, advising on changes where necessary.	Develop protocols, benchmarks and data analysis appropriate for the setting to review and monitor progress towards targets and the use of appropriate strategies for learners with dyslexia/SpLD. Use this to train and advise others on appropriate strategies, such as 'Assessment for Learning', according to the setting.	1.8, 2.2, 2.4, 2.5, 2.6, 2.7,	S5 L7; L9	1.8, 2.2, 2.4, 2.5, 2.6, 2.7, 5.2, 5.3, 5.4, 6.1, 6.2

D6	Use teaching materials and lessons relevant to the subject area to meet the needs of learners with literacy difficulties.	Plan and prepare differentiated teaching materials and lessons relevant to the subject area to meet the needs of learners with dyslexia/SpLD. Monitor and record learning outcomes.	Support others to plan and prepare teaching materials and lessons in a range of subjects to meet the needs of learners with dyslexia/SpLD to promote an inclusive classroom setting.	Advise on schemes of work and other inclusive teaching practice to promote critical thinking and self-directed learning with a range of subject specialists.	Train and mentor colleagues to establish and evaluate interventions in planning for learners with dyslexia/SpLD.	1.8, 2.7	S4;	1.8, 2.7
D7	Use literacy programmes, under guidance, to meet the needs of individual learners.	Report on the progress of dyslexia/SpLD learners with whom you use literacy programmes.	Using your knowledge and understanding of a structured literacy programme, identify appropriate literacy support to meet the needs of individual learners with dyslexia/SpLD and evaluate their effectiveness.	Evaluate and advise on a range of appropriate and effective literacy strategies for any given learner across a range of settings and curriculum areas.	Use appropriate assessments to offer specialist advice on a range of appropriate and effective literacy interventions for any group of dyslexia/SpLD learners. Implement processes to enable others to evaluate their effectiveness, supported by research evidence.	1.2, 1.3, 2.4, 2.5, 2.7,	S4; S6 L7; L8	1.2, 1.3, 2.4, 2.5, 2.7, 5.2, 5.4, 6.2,

D8	Use teaching strategies designed to support numeracy development for learners with literacy or other difficulties.	Understand how to support the development of numeracy for dyslexic/SpLD learners and implement appropriate maths interventions.	Implement ongoing training to enable others to understand the development of numeracy for dyslexic/SpLD learners and develop structured, cumulative, multisensory maths interventions.	Distinguish between math difficulties resulting from poor literacy/memory/sequencing/metacognition and dyscalculia and be able to apply this knowledge to develop strategies to support dyslexic/SpLD learners.	Critically evaluate the ways in which poor literacy, memory, sequencing, and metacognition impacts on mathematical understanding and processes. Design interventions for learners. Be up to date with current research on distinction and overlap between the numeracy difficulties of learners with dyslexia/SpLD and those with dyscalculia and disseminate this to other professionals.	1.3, 5.1.3,	S4;S6 L8	1.3, 5.1.3, 5.3, 6.1, 6.2

D9	Use, under guidance, specialist resources available to support learners with literacy difficulties.	Implement appropriate specialist interventions to support learners with dyslexia/SpLD and report on the progress of learners.	Develop knowledge of a range of specialist resources for learners with dyslexia/SpLD and support colleagues in monitoring learners' progress.	Advise on a range of specialist resources that are relevant for learners with dyslexia/SpLD across settings.	Train and mentor colleagues in the use of specialist resources that are relevant for learners with dyslexia/SpLD and evaluate the effectiveness of resources used.	1.2, 1.7, 2.4, 2.5, 2.7,	S4 L8	1.2, 1.7, 2.4, 2.5, 2.7, 5.1.1, 5.2, 5.3, 5.4, 6.2
D10	Use, under guidance, ICT and multi-sensory teaching programmes to support learners with literacy difficulties.	Effectively and independently use a range of ICT and multi-sensory teaching programmes to support learners with dyslexia/SpLD.	Advise and support others on the effective use of a range of ICT and multi-sensory teaching programmes to support learners with dyslexia/SpLD.	Critically evaluate the relative strengths and weaknesses of different multi-sensory teaching programmes and a range of ICT resources.	Assess the relative strengths and weaknesses of different multi-sensory teaching programmes and a range of ICT resources. D11	Differentiate and adapt resources, under guidance, to meet the needs of learners with literacy difficulties.	Select, construct, differentiate or adapt appropriate resources for learners with dyslexia/SpLD in your setting.	Advise and support others on selecting, adapting, differentiating and using appropriate teaching resources for learners with dyslexia/SpLD in your setting.	Identify and evaluate appropriate teaching resources for learners with dyslexia/SpLD across settings.	Disseminate strategic approaches to selecting, adapting and using evidence-based teaching resources for learners with dyslexia/SpLD across settings. Link this advice to delivery of training and mentoring programmes and policy development across settings.	1.2, 1.4, 1.5, 1.7, 1.8, 2.4, 2.5, 2.6, 2.7,	S4 L8	1.2, 1.4, 1.5, 1.7, 1.8, 2.4, 2.5, 2.6, 2.7, 5.2, 5.3, 5.4, 5.6.2, 5.7, 6.2

D12	Actively seek the views of learners and use these to modify approaches to teaching and learning, with guidance if necessary.	Ensure that views of learners with dyslexia/SpLD are actively sought in relation to their needs on a full range of relevant issues and use this information to inform teaching programmes.	Advise and support others on how to obtain and act upon the views of learners with dyslexia/SpLD in relation to their needs on a full range of relevant issues and use this information to develop teaching programmes.	Evaluate and improve processes to ensure that the importance of seeking the views of learners with dyslexia/SpLD is embedded across settings.	Use tailored assessments to demonstrate commitment to the importance of seeking the views of learners with dyslexia/SpLD across settings. Ensure that 'pupil voice' is incorporated into training and mentoring programmes and policies developed in the setting.	2.3, 2.6,	S4; S6 L3; L4; L8	2.3, 2.6, 5.5, 5.7

D13	Provide clear and relevant information about the progress of learners in a way easily understood by the learner, parents/carers and other professionals.	Ensure appropriate recording methods hold clear, relevant and up-to-date information about the progress of learners with dyslexia/SpLD. Use the information to discuss progress towards outcomes and targets with learners, parents/carers, and other professionals.	Advise and support others on how to provide clear, relevant and up-to-date information about the progress of learners with dyslexia/SpLD. Use the data arising to evaluate effectiveness of interventions and pupil progress in the setting.	Evaluate reporting procedures used in the setting to ensure that clear, relevant and up-to-date information about the progress of learners with dyslexia/SpLD continually updated. Ensure information is easily accessible by the learner, parents/carers and other professionals.	Use specific information from assessments and/or evaluations across settings to advise on appropriate methods of data-driven information gathering. Advise on using the data arising to evaluate the effectiveness of interventions and pupil progress in the setting and make necessary adjustments.	1.8, 2.5, 2.7,	S4; S6 L6; L8	1.8, 2.5, 2.7, 5.2, 5.7,

D14	Find ways to link practice in your setting with the home, by liaising with parents/carers to share information about approaches used in the class and how these can be adapted for use at home.	Embed communication strategies to complement practice in your setting and the home, such as suggesting suitable at-home activities or including parents and care-givers in 'sample' lessons.	Initiate and support complementary practice across your setting with the home environment. Discuss barriers to learning outside your setting and implement strategies to overcome these. Ensure regular communication between pupils, parents and colleagues and monitor outcomes.	Advise and design programmes to support complementary practice between a range of settings and the home and provide mentoring and coaching to support implementation.	Use all-round evaluations of the learner, the setting and the home environment to design and recommend strategies to support complementary practice and provide mentoring and coaching to support implementation. .	1.6, 1.8, 2.5, 2.6, 2.7,	S4; S6 L8; L12	1.6, 1.8, 2.5, 2.6, 2.7, 5.2, 5.5, 5.7,

D15	Be aware of good practice which will inform work with learners with literacy difficulties. Understand the concept of evidence based practice.	Use evidence-based practice, relevant research and theories to inform your work with learners with dyslexia/SpLD.	Apply and advise others on using evidence-based practice, relevant research and theories to inform work with learners with dyslexia/SpLD.	Demonstrate current knowledge and advise others on how to use evidence based practice, research and theories to design interventions to support inclusion in a classroom setting.	Disseminate up-to-date knowledge to advise others on the contribution of evidence based practice, research and theories and how it can improve outcomes for learners with dyslexia/SpLD. Use this knowledge to mentor and train others on how to evaluate interventions in the setting so as to contribute to the development of the evidence base and modify strategies accordingly.	1.3, 1.4, 1.8, 2.4, 2.7,	S4; S6 L12	1.3, 1.4, 1.8, 2.4, 2.7, 5.1.1, 5.1.3, 5.2, 5.4, 6.2

D16	Use strategies that encourage the learner to reflect upon his/her own performance and discuss the strategies that the learner finds most useful.	Create a learning environment which facilitates metacognition in learning for learners with dyslexia/SpLD. Design strategies that facilitate learner reflection upon his/her own performance and encourage awareness of the strategies that the learner finds most useful. Report on these to other colleagues.	Advise and support others about presenting information and knowledge within a metacognitive framework.	Devise learning interventions for pupils with dyslexia/SpLD which use a metacognitive framework and monitor and evaluate the effectiveness in the setting.	Review and evaluate metacognitive learning interventions for pupils with dyslexia/SpLD in the light of emerging research. Monitor and evaluate the effectiveness of interventions in the setting.
